Objective

Passionate full-stack developer with project experience spanning Node.js backend architecture and a JavaScript frontend, building a live data-driven Esports Scores application deployed to production. Eager to join a development team where I can contribute to both frontend and backend systems and solve real user problems.

Education

- CHARUSAT University(CSPIT) —
 - B.Tech , Artificial Intelligence and Machine Learning
 - 2024 – 2028 | CGPA: 7.00
 - Shree Swaminarayan Gurukul
 - 12th Science – PCM | PR:90.79
 - 2022 – 2024
-

Skills

- **Languages :** JavaScript, Python , C++
 - **Frontend:** HTML, CSS, React.js, Tailwind CSS
 - **Backend:** Node.js, Express.js
 - **Database:** MongoDB, My SQL
 - **Tools:** Git, GitHub, Postman, Figma, Vercel, AI Tools
 - **Soft Skills:** Communication Skills, Teamwork & Collaboration, Leadership & Responsibility
-

Projects

Esports Live Scores – Real-Time Score Tracking Platform

1. Built a full-stack esports score tracking application with a Node.js/Express backend and a JavaScript frontend deployed on Vercel.
 2. Designed and implemented a RESTful API with dedicated endpoints for live scores, player data, and health checks.
 3. Developed API key-based authentication middleware to secure all protected routes from unauthorized access.
 4. Structured project using MVC architecture with separate layers for config, controllers, middleware, models, and routes.
 5. Configured CORS policies and environment-based variables for seamless frontend-backend integration.
